Would Rather in Teenage Life

Teenage Life | Preferences and unreal present wishes | Cambridge IGCSE ESL 0511

1. Lead-in discussion

Talk with a partner. You may already use this grammar without noticing it.

No.	Question
1	What would you rather do after school: relax or finish homework immediately?
2	What would you rather your school changed about the timetable?
3	Would you rather have more independence or more support?
4	What would parents rather teenagers did at weekends?

2. Grammar in context

Read the text. The bold phrases show the grammar used in a natural topic context.

Talking About Preferences

Teenagers often have strong preferences. Some students **would rather relax** after school, while others prefer to finish homework immediately.

Parents may see things differently. They might say that they **would rather their children spent** less time online and more time sleeping, exercising or talking with family.

At school, students sometimes say they **would rather teachers gave** shorter homework tasks but more useful feedback. These phrases help people discuss choices politely.

3. Notice the pattern

Use **would rather + infinitive** for your own preference. Use **would rather + subject + past simple** when you want someone else to do something differently now.

Use	Form / signal	Example
Own preference	would rather + infinitive	I would rather relax after school.
Other person's action	would rather + subject + past simple	Parents would rather teenagers slept earlier.
Negative	would rather not + infinitive	I would rather not study late at night.
Polite preference	would rather ... than ...	I would rather talk than argue.

4. Build accurate sentences

Complete each sentence using the grammar focus. Then write two examples of your own.

No.	Prompt	Use	Your answer
1	I / relax / after school.	would rather	
2	Parents / teenagers / sleep / earlier.	would rather + past	
3	Students / teachers / give / more feedback.	would rather + past	
4	I / not / argue about rules.	would rather not
